

Touch Screen

Touch your Heart!

“What makes SkyAngelWatch™ different?”

This premier mobile alert system provides freedom with security. With the touch of a button, you can talk with help, anytime, from virtually anywhere. Other products like a traditional Personal Emergency Response System (PERS) only allow you to call for help within 150 to 600 feet away of a base station. Unlike a PERS, SkyAngelWatch™ works both indoors and outdoors to ensure anyone has peace of mind knowing that help is always available. In addition, SkyAngelWatch™ has GPS enabling your local 911 call center to locate you, even if you’re lost or can’t describe your location.

Call the Watch---Calling the watch allows a 2 way conversation to occur so you can pass on a message, advise them you are running late or simply check that they are ok.

Receive Calls ---To answer the call the wearer will just tap the screen to accept the call.

Make Calls from the Watch---Using our new touch screen on the face of the SkyAngelWatch, simply swipe to choose the linked number you wish to call. Only numbers that are linked to the are able to be called from the SkyAngelWatch.

 <p>Two-way Phone Calls</p> <p>Make and receive calls from up to 13 pre-set contacts (10 for white list and 3 for SOS alarm)</p>	 <p>Splash Proof</p> <p>Allows to exercise, in the rain, and while washing hands, but submerging and swimming is not recommended</p>	 <p>Alarm Clock</p> <p>Shows current local time, date and adjust worldwide time zones automatically</p>	 <p>Safe Zones</p> <p>Receive notifications from App when wearer enters and leaves “geofences”</p>	 <p>Low Battery Alarm</p> <p>When the watch is down to less than 10% of battery, then warnings will be shown on the watch and also send a push notification to the App</p>
 <p>SOS Alert Button</p> <p>Call up automatically to 3 emergency contacts when pressed for 3 seconds</p>	 <p>History Routes</p> <p>Know historical routes on the App via any iOS or Android smartphones</p>	 <p>Real-time Tracking</p> <p>Update wearer’s location automatically in every 30 seconds via GPS/ LBS and Wi-Fi (indoor tracking) anytime and anywhere</p>	 <p>School Mode</p> <p>Set up the schedule to prevent contacts to call during the school time</p>	 <p>Remote Voice Monitoring</p> <p>Use App to hear what is going on around watch wearer</p>

Track with your Smartphone---iOS and Android apps allow you to see where your loved one is by using your smart phone from anywhere you have mobile data. After logging in, locate the person, review reports and confirm alarms. Set up a new safe area or even see where you are in relation to them using our unique directions feature – perfect if you are in an unfamiliar area. You can also call your loved one at the touch of a button from within the app to let them know you’re running late to pick them up
