ITEM # atstvap

This voice dialing phone includes 3 voice commands and 17 remaining name and number memories. It also includes the convenient pre-dialing feature that speaks the numbers before dialing. It contains 80 talking CID numbers and the LCD displays the name as well. The phone includes other accessible and convenient features such as a hands-free function, electronic mute, Flash, 911 key, and Redial/Pause key. It also includes classic features of Handset volume lo/mid/hi up to 40db and Ringer off/low/high volume switches, hands-free volume control, and a bright LED visual ringing indicator. The phone caters to seniors and special needs users.
