

The Wireless Sensor System 400 Foot Range

Be Notified When Movement is detected in the Driveway, Porch or Any Room in the house!

Why Do You Need a Movement Sensor?

We offer the Wireless Sensor System because we heard from customers that they needed a solution for a practical problem. They asked for a movement sensor solution capable of letting them know when someone or something is moving around. And most of all they wanted it to be simple. No running wires, no wall mounted boxes, simplicity and portability.

Only \$29.93 US + Shipping/Handling

ITEM # ats4414dm

There are probably a hundred places you could put the Wireless Sensor, but here are some of our recommendations: Fencepost, Planter, Tree, Bush, Fence, Curb, Overhead in carport, Near the porch, Back door, Workshop, In a bedroom to monitor movement of a loved one.

How It Works:

When it detects motion from a vehicle or person, the Wireless Sensor sends a signal to the receiver and the receiver will flash and alert.

Then, you place the Receiver anywhere. It's battery operated and wireless so you can take it anywhere you want.

You'll Know You Have Visitors or Movement When the Chime Rings!

**Guests
Arrive**

**Deliveries
are Here**

**Neighbors
Visit**

**A Loved One is
on the move**

**Someone's
Leaving**

The Wireless Sensor works anytime, day or night

- Weather resistant case protects the sensor from the elements.
- 400 foot range from sensor to receiver (environmental factors may reduce range)
-
-
- Motion Sensing detection range blankets a 20x30ft area
- Transmission frequency 434MHz
- Passive infrared technology (PIR)
- Sensor Requires 1 9v battery (not included)
- Receiver requires 3 'C' batteries (not included)
- Receiver has 3 volume settings, High, Low and Off
