Wireless Vibrating Chime Personal Pager

Great for the caregiver on the go, carry the pager with you as you move about the home.

The wireless vibrating chime personal pager allows you to signal for help when you need assistance.

Just press the button and a signal is sent to the pager. The pager vibrates or chimes to alert you of the need.

ONLY \$62.48 US + Shipping/Handling

ITEM # ats4526

Get the help you need by pressing the button on the transmitter. The wireless vibrating chime personal pager can be set to chime loudly or vibrate for a more discrete announcement of the need.

The System has a 100-foot range so you can carry the pager with you all around the house, apartment or anywhere.

The system is easy to use and totally portable because it is entirely battery operated.

The small transmitter has a push button that sends a wireless radio signal to the pager/receiver that has either a chime or vibration alarm.

The pager will buzz for about 4 to 5 seconds when you press the button on the transmitter. Holding the transmitter button down will continually buzz the pager until you release the button.

All units operate on the same frequency. If you purchase multiple units all the receivers will buzz when any one of the buttons are pressed.

The transmitter is on a 16" cord and can be worn around the neck or easily carried in a pocket. The pager can be set on a desk or clipped to your belt.

This pager eliminates the need to use a phone, ring a bell or scream for help. By pressing the button, you can easily and discreetly let someone know that help is needed.
