

ATS-TN.COM

“What makes SkyAngelFriends™ different?”

This premier mobile alert system provides freedom with security. With the touch of a button, you can talk with help, anytime, from virtually anywhere. Other products like a traditional Personal Emergency Response System (PERS) only allow you to call for help within 150 to 600 feet away of a base station. Unlike a PERS, **SkyAngelFriends™** works both indoors and outdoors to ensure anyone has peace of mind knowing that help is always available. In addition, **SkyAngelFriends™** has GPS enabling your local 911 call center to locate you, even if you're lost or can't describe your location.

Call Friends (or anyone).

In addition to the SOS button that usually is used to call 911, pressing the side button can be programmed to call friends if you need them. So if you just want to call one of your contacts you can do that easily without calling 911.

Receive Calls (from anyone).

Since you have a real cell phone number anyone can call you anytime to see how you are doing. Great for check in calls from friends, family or anyone.

Powerful Features:

- * Receives incoming calls * Works anywhere there is cell phone service
- * Calls up to 3 numbers (user programmable) * 250 minutes of talk time per month
- * Instant 2-way speakerphone communication
- * GPS tracking allowing 911 Emergency help to know your approximate location
- * Works for days between charges, when fully charged * Cancel anytime - NO commitments
- * Freedom to leave your home and carry the 'Angel' with you. * One Year FULL WARRANTY on all equipment
- * Online tracking and Smartphone app tracking. * Assign GEO Fence for location alerts
- * Send text commands to track and get current status of device
