you can see who is at your door and speak clearly with your visitor ...
BEFORE opening your door to them.

Catalog # ats43861V   *$289.95 with 30-day Money Back Guarantee!*

Customer Comment: "WOW, I can see and talk with delivery people at my door without having to wheel my wheelchair over to the door anymore, thanks for this"   Mary L. - FL

Know who is at your door, even from your bed! This state-of-the-art wireless *video intercom doorbell and security system, for home, office or any room security and peace of mind is important, is a must.

The advanced technology of this Wireless *Video Intercom Doorbell and security system can also be used as wireless surveillance system (if hard-wired versus battery use). Watch live *video and have a two-way conversation with the person at the door. Battery operated camera and handheld receiver.

When a visitor activates the doorbell, a snap shot is automatically displayed, allowing you to safely identify visitors before answering with the two-way microphone, intercom system. The hand-held LCD display unit has a large 2.25" display that offers a crisp, clear picture and comes with a charging cradle that makes it wireless and portable.

From the display unit itself you can answer / hang up, manipulate screen brightness and even take a snapshot of the individual for later use with a memory capacity of 163 images.

*Although line of site is not required, the maximum range is based on optimal conditions with minimal interference. Wireless range is affected by objects such as walls, trees, etc. Actual range may vary, depending on environment.

~ Easy installation; no wiring necessary (optional for live feed) ~
Wireless transmission distance of up to 330 feet*
~ Portable monitor / receiver goes where you go, so you can see who's at the door from wherever you are
~ Auto shut-off after 60 seconds to conserve battery life and has a low battery warning
~ 2.25" LCD color monitor displays a live picture view of the visitor
~ Includes charging base and rechargeable batteries for monitor; uses 6 AA batteries for camera unit (not included)
~ Push button can also be hardwired with a standard power adapter (not included); suggested for installations
     where the push button would be used more then 5 or 6 times a daily
~ Battery last up to 6 months (based on usage)
~ Built-in night vision in camera
~ * Live browsing (video) mode allows you to monitor the view from the door camera on the LCD display at any time
     (requires door camera to be hard wired)
