

Talking Thermometer for Cooking Meat

accuracy than ever before.

With the Talking Thermometer-you don't even have to be in the same room to know your food is done. With its easy-to-read display, you will know the target temperature and actual temperature at the same time. When your food is done, you have the choice of hearing, "Your food is done", a beeping alert, or no alert at all. It even features a special, "Don't forget to baste" alert-perfect for your poultry dinners. The thermometer features reminder alerts for 30, 20, 10 and 5 minutes and has presets for the doneness of beef, pork, veal and poultry. You can also program any taste and temperature you prefer-this thermometer has it all. Choose F or C for measurement, and with the 48-inch probe-you're assured more

ONLY \$34.97 US + Shipping/Handling

ITEM # ats4799T

The Talking Thermometer actually calculates, displays, and verbally announces time remaining until the food is done. Just choose a type of meat, and a doneness level, and your set to enjoy your food! Your thermometer will anticipate when your food will be cooked to your desired temperature and will display it in a bar graph, in a numerical display and, at preset intervals, it will be announced. There is no need to worry about under or overcooked foods again.

Monitor the meat cooking in your oven and receive voice alerts when it's ready

Includes special "Don't forget to baste" alert

Perfect for cooking poultry
